B. Suggestion

Based on the findings in this research, there are several suggestions offered for the English teacher, the students and the future researchers.

1. The Teacher

In order to achieve a good result from a teaching and learning process, teacher should concern about the students' problem in learning. By finding the problem, teacher can determine what kind of action that appropriate to solve the problem. Teacher also should discover the students' characteristic and how they learn. This is because by knowing the students' characteristic and students' learning style, the teacher can determine an appropriate teaching method. Teacher should always be creative in using a teaching media. There are many others media that usual to teach such as games, song, movie, or others.

2. The Students

The English students should motivate themselves to learn. They should follow the activities in class well. They should learn English

continually. They should be creative to find how to learn English well. They can learn English by themselves by using many media. They should also learn English at home and finish their homework.

3. The Next Researcher

This research can be a motivation and also as a reference for future researcher to conduct a better classroom action research by using different media, or replicate this research on different level of students.
