Thanks a lot to all of cadre PMII Sunan Ampel STAIN Kediri, especially for Rayon Al-Kindy, my laboratory to get more experience and motivation in reaching my dream.

My Classmate

Thanks to my beloved friends “B CLASS 2013” you all have always given me cheerful and joyful world.

ACKNOWLEDGEMENTS

Alhamdulillahirobbilalamin. First, I would like to thank Allah SWT, God Almighty for endlessly blessing me not only the good but rather than all the best things in my colourful life. Whose love and guidance have enabled me to finish this thesis.

In finishing this thesis by the title *The Effectiveness of Using Bamboo Dancing Method in Teaching Speaking Skill at The Eleventh Grade Students Of SMAN 2 Pare*, the researcher has gotten a lot of helps and advice that involve many people. Therefore, the researcher would like to give appreciation to:

1. Dr. Nur Chamid, MM as the chief of the State College for Islamic Studies (STAIN) Kediri.
2. Dr. H. Ali Anwar, M.Ag as the chief of Tarbiyah Faculty.
3. Dr. Ary Setya Budhi Ningrum, M.Pd as writer's advisor I in finishing the thesis who always gives the researcher some advice to make this thesis correct and better, Erna Nurkholida, M.Pd as the advisor II who gives suggestion to the researcher in writing this thesis.
4. All of staffs in master office, academic office, SLC, and Library of STAIN Kediri who let support the researcher in the process of finishing this thesis.
5. Purnomo, S.Pd, M.Pd as the head master of head master of SMAN 2 Pare for allowing me to do my research.
6. My beloved father Bapak Sugiyono, my respectable mother Zulaichah, my sister Hemalia Aisyah putri and also all of my family thanks for your helping.
7. The researcher's friends in Tarbiyah English Language Education generation 13', all of people in STAIN Kediri that knows the writer, and also the researcher's friends at We are B Family.
8. All of people that help this thesis become complete thank you so much for your attention, for your support, for your guidance and for your help in this thesis, the writer really proud of you.

9. All of my organizations in STAIN Kediri especially PMII, the researcher just want to say thanks to you all.

Finally, the writer hopes this thesis will be useful for all readers. The writer realize that this thesis is not perfectly enough yet, it is caused on limitation of capability and knowledge that the writer has owned. Therefore, the writer excites to receive constructive criticism and suggestion to make this thesis better. Comments, suggestions, and questions are always welcome.

ABSTRACT

Mujadid, Alief Jauhar. 2017. *The Effectiveness of Using Bamboo Dancing Method In Teaching Speaking Skill At The Eleventh Grade Students of SMAN 2 Pare*. English Department, Faculty of Education, State College for Islamic Studies Advisors : (I) Dr. Ary Setya Budhi Ningrum, M.Pd. (II) Erna Nurkholida M.Pd.

Key words: *Bamboo Dancing Method, Speaking Skill.*

This study focuses on The Effectiveness of Using Bamboo Dancing Method in Teaching Speaking Skill at the Eleventh Grade Students of SMAN 2 Pare. The objective of this study is to know whether the students have better speaking skill or not by using bamboo dancing method.

The Subject of the research is the students at the eleventh-grade of SMAN 2 Pare in the second semester in the academic year of 2016/2017. They were class XI MIA 1 as experimental group that was taught by using Bamboo Dancing Method and class XI MIA 7 as control group that was taught by non Bamboo Dancing Method. The instrument tests, namely pretest and posttest. The score of them was calculated by using ANCOVA.

In the result of pre test, the mean score of experimental is 53.00 while the mean score of control group is 54.00. in the post test, the mean score of experimental is 77.00 while the mean score of control group is 73.83. Then the result of ANCOVA assumption shows that the distribution is normal that is .080 for pre test and .144 for post test. Then, the homogeneity variance of both groups are equal that is $.960 > .05$ and there is no interaction between covariate and independent, as evidenced by $.318 > .05$. Then, there is a relationship between covariate and the dependent variable, $.047 < .05$.

Then the result of statistical computation of ANCOVA states that the result is significant $.000 < .05$. Since the significant value is lower than .05 statically there is enough evidence to reject null hypothesis, then the alternative hypothesis is received. It means that teaching speaking skill by using Bamboo Dancing Method is effective.
