

CHAPTER VI

CONCLUSION AND SUGGESTION

The last chapter is conclusion and suggestion. In this chapter, the writer take conclusion about the cause of students who are not motivated, the effort of teacher to improve student's motivation to learn, and the effect of teacher's effort based on analyze. The writer gives suggestion in this research.

A. Conclusion.

Based on the data and analyze above, the writer take some conclusions bellow this.

1. There are four causes of students who are not motivated to learn. Those are Class Distruptions, environment, family, and school.
2. There are seven efforts of Mrs. Louanne Johnson as teacher to improve student's motivation to learn. Those are does phenomenological to make students interest in her lesson by teach karate, giving score A to all of students, giving a snack, invites the students to make a tour, playing a game, does avocation approach, does help student's problem.
3. There are four effects of Mrs. Louanne Johnson's effort. Those are her students become conscious to study, Mrs. Louanne Johnson's students can graduate from Senior High School, the social condition in students family is better, the social life Mrs. Louanne Johnson's students in environment are better.

B. Suggestion.

The result of this research, hopefully can give the advantages for everyone who read this research. The writer hopes this research give the knowledge for the people who like to watch film, the reader, the teacher, and the student.

The writer recommends some points of the suggestions in this research. For the people who like to watch film, it is suggested to give some critics and analyze because in film there are many lessons that can we take. Film can give inspiration in our life.

For the reader, this research gives understanding thing about the effort of teacher to teach her students, How she improves student's motivation to learn.

For the teacher, this researcher gives more information about teaching strategies; there are strategies that can apply in classroom. Teacher uses intrinsic and extrinsic motivation to teach the student. She never gives up teaching her students. She becomes inspiration to her students. This ways is good because there are many students in Indonesia have problem like in this film. As a teacher, we can imitate the way to teach.

For the student, this research will know that being students is not only go to school and joking with the other friends. Students should listened teacher's explanation. They must appreciate their teacher. They not only can study about the knowledge. They can learn about live and humanity.
