CHAPTER V

CONCLUSION AND SUGGESTION

This chapter presents the conclusion of the research and discussion. This part gives suggestions that can be used to improve the ability and understanding of the readers about deixis.

A. Conclusion

Based on findings and discussion in the preceding chapter to answer the problem of this study, the researcher concludes that:

1. There are three types of personal deixis that are found in political news on "The Jakarta Post". They are first person, second person and third person.After analyzing the political news on "The Jakarta Post", the writer found215 personal deixis which cover first, second and third personal deixis. First person deixis consist of"I" (21 items), "my" (5 items), "me" (1 items), "myself" (1 item), "we" (10 items), "our" (1 item), "us" (2 items). Second person deixis consists of "you" (3 items) and "your" (1 item). Third person deixis are "they" (7 items), "their" (21 items), "them" (5 items), "he" (54 items). "his" (64 items), "him" (14 items), "himself" (2 items), "she" (4 items), "her" (3 items). Consequently,all of first person deixis is 41 items, second person is 4 items and third person is 170 items.

2. There are three kinds of reference that are found in political news on "The Jakarta Post". They are anaphora (180 items), cataphora (27 items), and exophora (12 items). Therefore, there are found 219 items of references in personal deixis

The most frequently types of deixis is third personal deixis. Because, on the newspaper states another person to wr_____ _he text. So, they write on the text often use third person deixis. Meanwhile, the _____ quently references of deixis is anaphora. Because, anaphora (backward reference) is a noun or pronoun that occur refers back to

another word or phrase in the sentence. On the news, the author often use anaphora references to make the reader easy to understand.

B. Suggestion

Related to the data presentation of this research, there are several points that could be paid attention, they are?

1. For the readers

The researcher suggests the readers, who love reading the political news or magazine etc to more attention and understand the types of personal deixis with kind of references clearly. Because the researcher has found that it is almost used in some news that it is more difficult than other type of reference.Especially, anaphora, cataphora and exophora.

2. For the next researcher

The researcher suggests the next researcher who takes the similar research to do more completely the data.
