B. SUGGESTION

Based on the result of analysis above the researcher would like to give some suggestion for English teacher, English students, the readers and the next researcher. The researcher hopes:

1. For the English teacher, the researcher hope teacher can be creative to teaching in the class. Make students more interesting to learn in class, the teacher can use video, movie or music song lyric as a media.

Especially if in class that discuss about figurative language, the media can make the students more easily to know the figurative language.

2. For the students of English department, the researcher hope that students can find a way to improve their ability in English. Especially in figurative language and identity by using some media, such as: music, movie, video and etc.

3. For the readers, the researcher hope they can get some information, knowledge, moral messages and more interesting to listening religious music, because in the religious music there is much knowledge about Islam.

4. For the next researcher, the researcher hope the next researcher can explain more about figurative language in song lyric or others. And further deepen his research. Because in here the researcher explains about figurative language and the moral messages that found in this song lyric.
