

## CHAPTER V

### CONCLUSION AND SUGGESTION

This chapter presents the conclusion of the presentation of the findings research which stated in the previous chapter. It also presents the suggestion to the several parts related to teaching learning process especially on English class.

#### **A. Conclusion**

Based on the observation result, and the students' test result of improving speaking skill of the first year students of MTsN Mojoroto Kediri by using incomplete picture series technique, the researcher concluded that the method can improve the students' speaking skill.

The successfulness of the classroom action research can be known from the score. In cycle 1, the percentage of the students' activity was 75% in cycle 2 it improved becomes 100%; it meant that the students had been increased by using incomplete picture series technique and they enjoyed their learning. Besides, the improving of teacher's activity as good that was 96.65% to be 100%; it meant that the researcher had done her activity well. Besides, the achievement test of the students in cycle 1 was 60% who got 80 and in cycle 2, the students' achievement had improved; it was 83.3%.

In addition, the measurement of the test was also valid because the validity of test was measured based on the content. Besides, the reliability of test was

measured by inter rater that used pearson product moment, and the result was 0.477; it meant that the degree of the correlation was fair.

### **B. Suggestion**

After doing this classroom action research and knowing the result of this research, the researcher has some suggestions:

1. The teacher is hoped to continually give motivation to the students that is to learn all subject especially English diligently and spirit. By giving motivation and spirit, the students will feel interested in receiving and understanding the material. Moreover, they will do their obligation as a student well
2. In teaching speaking, the teacher should give various activities which connected in speaking English. If the students are just given the same activity, they will feel boredom.
3. The teacher should involve the students to reach the goal of the teaching learning process
4. The teacher should guide and help the students patiently because the students of junior high school still adapt with the different lesson from the elementary school
5. The teacher should not explain anything out of the material, because the time studying is limited. It will spend many time of the goal the teaching learning process

6. The teacher should give time to the students to master speaking skill. Because it is one of the important skill that have been mastered by the students
7. The students have to improve their speaking skill by accustoming conversation not only in the English class but also out the class. In addition, they have to often listen the song of English
8. The next researcher can use this method, Incomplete Picture Series Technique, to improve speaking skill or writing skill better in conducting the research
