## ABSTRACT

**NAJAH, DINAR ZIYAADATUN, IMPROVING SPEAKING SKILL THROUGH MOVIE DISCUSSION AT THE ELEVENTH GRADERS OF MAN KRECEK-PARE-KEDIRI. SKRIPSI, English Department faculty of Education, State Collage for Islamic Studies Kediri, 2013**

**Key words: Improving, Speaking, Movie Discussion**

Speaking is an important thing to learn, because it will help the students enjoy their English speaking activities. There are two kinds of way which people established communication in language that is oral and written. It means that speaking is the most important aspect that must be mastered by them than reading, writing and listening. But, learning speaking is not easy. There are some problems faced by students in learning speaking such as, the students speechless, lack of vocabulary so incapable to produce new words, the sentence they produce based on the material given and they take too much time thinking what are going to say. So that's why, the interesting method is needed.

The classroom action research was conducted in three cycles. Each cycle consisted of planning, acting, observing, and reflecting. The criterion of success here is if the students could get good achievement in their speaking test, and the criterion of the success here were that 75% of students got minimum score of 70. In order to obtain the data about the students' improving speaking skill through movie discussion the researcher stimulated the students prior knowledge by asking question, introducing the topic, introducing the words, giving games and worksheet, and conducting evaluation test.

The subject of the research here is the English speaking students of MAN Krecek-Pare-Kediri, the time of researcher was begun on May 2011. The writer observes the English speaking students about improving speaking skills. The data was taken from observation and test.

The result of this research shows that to improve students speaking skills need very interesting method, and in this case the researcher use movie discussion as the tool. The students can practice their speaking with partner. And the strategies the researcher use are watching movie in the class, while watching movie students also might write the difficult words they found, and also discuss in small group by finding the meaning of their new words and also discuss about he character and the plot of the story. So they have to do presentation group by group or representative retelling in front of class. This method is really useful, it can known from their score in final test and observation in the class when they are speaking, most students have good score and they can speak up when the teacher ask them to speak. So we can conclude that with movie discussion in improving can help students to improve their speaking skills.
