

## CHAPTER VI

### CONCLUSION AND SUGGESTION

In this chapter, the researcher will present the conclusion of her research and he also will give suggestion based on the research.

#### **A. Conclusion**

Based on the research finding and discussion, the researcher makes conclusion as follows :

1. The result of research the use real object to improve speaking skill at seventh year students of Mts Miftahul Ulum Jarak Kulon Jombang is done by using 2 cycles. This on the cycle is consisting of two until four meetings.
  - a. The first cycle is done on Tuesday, 7<sup>th</sup> of May 2013 and Saturday 11<sup>th</sup> of May 2013. In this cycle is done by two activities and one material. This is descriptive text. In the first cycle, the score of the student's test is still low, but they were still confident to speak English in front of the class. The result average of test in the cycle 1 is 70,83. And then students who get score 74,91 up, they be excellent, between 66,75 and 74,91 is good students. Fewer than 66,75 is poor students. In the cycle 1 there are 10 students who excellent and 8 students are good, the there are 6 students get poor result. There are 10 student or 5 group are successes (41,67 % students are successes) and 14 students or 7 groups are failed (58,33 % students are failed). The results of test above is unsuccessful, because it is

does not fulfill the two criteria of success. The first is the student who get score minimally 75 are not reach 75% and the second is the average score of student in class are not reach at least 75. They still need more time to practice speaking English more clearly.

- b. The second cycle is done on Tuesday, 14<sup>th</sup> of May 2013, Saturday 18<sup>th</sup> of May 2013, Tuesday, 21<sup>th</sup> of May 2013, and Saturday 25<sup>th</sup> of May 2013 . In this cycle is continue the activities of cycle 1 but different topic ( Procedure text). And the score of the students is better than the first cycle. The mean of the second cycle is 75,83. It is better than the first cycle. In this cycle there are 8 students who excellent, 12 students are good, and 4 students are poor. There are 20 students are successes ( 83,33 % students are succeeded) and 4 students are failed ( 16,67 % students are failed). The results of test above is successful, because it is fulfill two criteria of success. The first is the student who get score minimally 75 are reach 75% and the second is the average score of student in class are reach at least 75. The researcher success in applying of real object to improve speaking skill at seventh year students of Mts Miftahul Ulum Jarak kulon Jombang.

#### **B. Suggestion**

Based on the result of the research, the researcher gives some suggestion to to teacher who teach and the students who learn English especially in speaking and also for the future researcher.

1. To the English teacher

- a. The teacher should be stimulate the students' interest to speaking
- b. Teacher should try to involve the students in every speaking activity, for this aim, practice different ways of students participation
- c. Teacher should not correct the students' pronunciation mistakes very often while they are speaking.
- d. The teacher should explain the students to make the dialogue, and help them if they get difficulty.

2. To the students

- a. The students should practice the speaking activity both in class and out of the class. In order to accustom their mother tongue and enrich their vocabulary.
- b. The students should be more active in the class activity, and great pay attention.

3. To the future research

The researcher believes that this research is still far from perfect, so he hope that the next researcher can take tje lesson from this research, so the researcher can increse quality of educational and get more complete in research and they can give better research in the next future.
