CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, the researcher presents two different parts, conclusion and suggestion. Conclusion consists of concluding of the analysis and discussion consists of suggestion based on the analysis.

A. Conclusion

Based on the findings and discussion presented in previous chapter, the researcher can gives conclusion that there there are two orders of signification to investigate the meaning, namely denotative and connotative meaning. Denotative meaning is in the first order of signification and connotative meaning is in the second order of signification.

Besides, the researcher also investigates about the meaning of mythology in the educational quotes on *quotefancy.com.* The findings of this research revealed that on educational quotes, there are two elements in the each images, verbal element which represents by the quotes and non-verbal element which represents by the images as the background.

B. Suggestion

This research is still far from being perfect. Hopefully, positive critisms and suggestion will be gotten from the readers to make the research better. Here, the researcher would like to give some suggestions related to the educational quotes on *quotefancy.com* that are probably useful for everyone who will study or do the research.

1. For the next researcher

   After analyzing all these quotes, the researcher suggests to the next researcher in order to do better than this research by adding the other uniqueness of quotes. The researcher also expects that the next researcher can use this research as a reference to do new research but in same field. The researcher hopes that many other elements on the educational quote can be found and analyzed.

2. For English lecturer

   The researcher also expects to contribute the result of this observation to helps improve the quality of education in this college. Actually, this research is one of subjects which studied in the Discourse Analysis subject. The researcher hopes that this research can help the lecturer to explain the material easier.

3. For general public

   This research utilized to be critical in appreciating a students' work. The researcher also expects that society should more realize that education is the most important thing in our life.
