

## **CHAPTER V**

### **CONCLUSION AND SUGGESTION**

This chapter presents the conclusion , implication and suggestion of the action research conducted in the eight grade students of SMPN 16 GRESIK, in academic year of 2023/2024. They are presented as the final discussion from the research findings

#### **A. Conclusion**

The researcher concluded the employing method active quiz team in classroom action research (CAR) can improve ability in speaking knowledge in the eight grade of SMPN 16 Gresik based on finding, data analysis, and discussion in the previous chapter.

The active quiz team was an effective tool for learning and teaching . in cycle 1 average score of the students got 73 and based on KKM is 75 so indicated cycle 1 still didn't optimal so the researcher continue to next cycle. In cycle II students got average score is 82 This indicated that the study was successful at cycle II.

#### **B. Suggestion**

Based on the findings in the research, there are several suggestion offered for English teacher , students and future researcher . the researcher suggestion are as follows:

##### **1. For English teacher**

The teacher plays many important roles in teaching learning process in the classroom. The teacher should have the ability to carry out a supportive and interesting environment in the classroom ,in order to help

students understanding and practicing the material easier. Active quiz team can be an alternative in teaching speaking .

## 2. For Students

The students have to improve their knowledge , they can enrich their English from other source like English learning with media or other site. And they can read English book to enrich their English skill.

## 3. Further researcher

For the next researcher ,the researcher gave suggestion this activity should be conducted in other school to get the wider generalization of the result . the researcher also hope that there will be many researcher who explore and use other media in teaching learning process especially teaching english
