### **DECLARATION OF AUTHENTICITY**

Name : Eldiana Ardi Wijayanti  
Student's ID Number : 21506015  
Department : English Language Education  
Thesis' Title : The Effect Of Fishbowl Strategy To Reading Comprehension Skill For Students Having Different Learning Motivation

I hereby declare that the thesis or the work presented and illustrated in it is my own, and it has been generated by me as the result of my own original research. It does not incorporate any materials previously written or published by another person except those indicated in quotations and references. No portion of this work has been submitted in support of an application for another degree or qualification of this or any other university or institution of higher education. Due to this fact, i am the only person responsible for the thesis if there is any objection or claim from others.

This thesis is to fulfill the requirement for the degree of magister (S2) in Department of English Language Education, State Islamic Institute of Kediri.

## ABSTRACT

**Wijayanti, Eldiana Ardi.** 2023. The Effect of Fishbowl Strategy To Reading Comprehension Skill For Students Having Different Learning Motivation. Department of English Language Education, Faculty of Graduate Degree, State Islamic Institute (IAIN) Kediri. Advisors (I) Dr. Fathor Rosyid, M. Pd., Advisor (II) Dr. Ary Setya Budhi Ningrum

Keyword : Fishbowl Strategy, Reading Comprehension, Learning Motivation

Reading is a tool for communicating in written language through texts form, reading is the efficient way to get information, it is easier and flexible. Reading become the important role in daily life. One of the goal of reading is to get the comprehension. Reading comprehension is skill that needs other skills such us vocabulary and decoding skills then, the reading comprehension called complex skill. Teaching Reading is a leaning process that include, recognizing words, assingning meaning to words, and constructing the meaning of the text. Teacher must be able to give them motivation to engage in reading. With motivated students, it can help them to achieve the goal of reading, because the motivated students will focus and pay attention during teaching and learning reading process This research aimed to examine the effect of fishbowl strategy to teach reading comprehension skill for students having different learning motivation.

This research used quantitative research as the method. The researcher conducted quasi-experimental. The sample of the research was two classes of eleventh grade students of SMA Islam Plus Hidayatut Thullab. XI IPS 3 as the control class, and XI IPS 2 as the the experimental class. Both classes consist of 25 students. The research instrument was a set of reading comprehension on report text test pretests and posttests. To determine how each student learning motivation, learning motivation questionnaire. To determine the efficacy of the technique used to identify the differences between learning styles, the hypothesis was tested using ANCOVA analysis.

The finding of this research shows about the differences significant value beetwen control and experimental class. (sig.  $0.000 < .050$ ; f-obained  $>$  f-table  $66.975 > 4.001$ ). In the Control Class they get mean's score 43.52. for the Experimental Class they get 75.04. It can be conclude that Experimental Class score is higher than the Control Class score.The result for the effect of Learning Motivation in the use of Fishbowl Strategy. The student's low motivation has significant value (sig.  $0.000 < .050$ ; f-obained  $>$  f-table  $57.4315 > 4.26$ ) then, the moderate also have significant value (sig.  $0.000 < .050$ ; f-obained  $>$  f-table  $26.978 > 3.32$ ), the last from high motivation have significant value (sig.  $0.000 <$

.050.; f-obained > f-table 123.946 > 4.46). The most of student's high motivation is Moderate Motivation, it shows in their mean. Moderate level's score of student's learning motivation is 76.571, then low level's score is 76.000, the last is high motivation, it gets 71.428.

## ABSTRAK

**Wijayanti, Eldiana Ardi.** 2023. The Effect of Fishbowl Strategy To Reading Comprehension Skill For Students Having Different Learning Motivation. Department of English Language Education, Faculty of Graduate Degree, State Islamic Institute (IAIN) Kediri. Advisors (I) Dr. Fathor Rosyid, M. Pd., Advisor (II) Dr. Ary Setya Budhi Ningrum

Keyword : Strategi Fishbowl, Pemahaman Membaca, Motivasi belajar

Membaca merupakan suatu alat untuk berkomunikasi dalam bahasa tulis melalui bentuk teks, membaca merupakan cara yang efisien untuk memperoleh informasi, lebih mudah dan fleksibel. Membaca menjadi peran penting dalam kehidupan sehari-hari. Salah satu tujuan membaca adalah untuk memperoleh pemahaman. Pemahaman membaca merupakan keterampilan yang memerlukan keterampilan lain seperti keterampilan kosa kata dan decoding, maka pemahaman membaca disebut keterampilan kompleks. Pengajaran Membaca adalah suatu proses belajar yang mencakup, mengenali kata-kata, menetapkan makna kata-kata, dan mengkonstruksi makna teks. Guru harus mampu memberikan motivasi kepada mereka untuk terlibat dalam membaca. Dengan adanya siswa yang termotivasi, maka dapat membantu mereka untuk mencapai tujuan membaca, karena siswa yang termotivasi akan fokus dan memperhatikan selama proses belajar mengajar membaca. Penelitian ini bertujuan untuk menguji pengaruh strategi fishbowl dalam mengajarkan keterampilan pemahaman membaca pada siswa yang mempunyai pembelajaran berbeda. motivasi.

Penelitian ini menggunakan penelitian kuantitatif sebagai metodenya. Peneliti melakukan eksperimen semu. Sampel penelitiannya adalah dua kelas siswa kelas XI SMA Islam Plus Hidayatut Thullab. XI IPS 3 sebagai kelas kontrol, dan XI IPS 2 sebagai kelas eksperimen. Kedua kelas tersebut berjumlah 25 siswa. Instrumen penelitiannya adalah seperangkat pemahaman membaca pada tes teks laporan pretest dan posttest. Untuk mengetahui bagaimana motivasi belajar setiap siswa, angket motivasi belajar. Untuk mengetahui keefektifan teknik yang digunakan untuk mengidentifikasi perbedaan gaya belajar, hipotesis diuji menggunakan analisis ANCOVA.

Temuan penelitian ini menunjukkan adanya perbedaan nilai signifikan antara kelas kontrol dan kelas eksperimen. ( $\text{sig. } 0,000 < 0,050.$ ;  $f\text{-obained} > f\text{-tabel } 66,975 > 4,001$ ). Pada Kelas Kontrol mereka memperoleh nilai rata-rata 43,52. untuk Kelas Eksperimen mendapat 75,04. Dapat disimpulkan bahwa nilai Kelas Eksperimen lebih tinggi dibandingkan dengan nilai Kelas Kontrol. Hasil pengaruh Motivasi Belajar dalam penggunaan Strategi Fishbowl. Motivasi rendah

siswa mempunyai nilai signifikan (sig.  $0.000 < .050.$ ; f-obained  $>$  f-tabel  $57.4315 > 4.26$ ) kemudian, sedang juga mempunyai nilai signifikan (sig.  $0.000 < .050.$ ; f-obained  $>$  f-tabel  $26.978 > 3.32$ ), yang terakhir dari motivasi tinggi mempunyai nilai signifikan (sig.  $0.000 < .050.$ ; f-obained  $>$  f-tabel  $123.946 > 4.46$ ). Motivasi siswa yang paling tinggi adalah Motivasi Sedang, hal ini terlihat dari meannya. Motivasi belajar siswa tingkat sedang sebesar 76,571, tingkat rendah sebesar 76,000, dan motivasi tinggi sebesar 71,428.

## **MOTTO**

*If i could change the way that you see yourself*

*You wouldn't wonder why you here*

*'They don't deserve you '*

**-Billie Eilish-**

## **DEDICATION**

*Bismillahirrahmanirrahim*

*First of all I would say the grateful to Allah SWT as my guidance, the Gracious and the Merciful you give me health to finish this thesis*

*From my deepest heart, i would like to dedicate this thesis to all all parts is involved in process of finishing it.*

*Thankyou to Eldiana, you always try although you are lazy, but you can finish this thesis.*

*Thanks to my Parent that always give me a lot of motivation, because they know i lack of motivation. For my beloved sisters, thanks for the money, and for the motivation also.*

*For my others family, thanks for always ask me about my thesis kinda make me nervous but its ok. Thankyou so much.*

*For Uti, thanks for the last time you smile for me, eventhough i cannot forget you easily, Rest in Peace my cutie pie ^^.*

*After that my API friends, Anjar, Nuari, my beloved partners, that always give me some smile in the middle of chaos.*

*Then for my Lovely Friends, our meeting is short, but our love is gonna be forever (Tsania, Khurnia, Pooja, Raulina, Yuza, Yusuf, Dhimas, Nuval, Azizin)*

## ACKNOWLEDGE

All praises belong to Allah, the most merciful and the most Gracious, who guided me to finish this thesis entitled "**The Effect Of Fishbowl Strategy To Reading Comprehension Skill For Students Having Different Learning Motivation**". I will not be able to finish this thesis in the time without getting help from people around me. This is why i would like to express my gratitude and appreciationto the following people:

1. Dr. Wahidul Anam, M.Ag., the rector of IAIN Kediri
2. Prof. Dr. H. Moh. Asror Yusuf, M.Ag., the director of Pascasarjana of IAIN Kediri
3. Dr. Toyibah, SS., M.Pd., the chief of English Department IAIN Kediri
4. My advisors Dr. Fathor Rosyid, M. Pd. And Dr. Ary Setya Budhi Ningrum, M.Pd for giving the researcher guidance, help, constructive, and suggestion in writing the thesis
5. All lecturers in Pascasarjana IAIN Kediri, especially in English Language Education major
6. All the staffs in master office, academic office, library of IAIN Kediri who let support the researcher in the process of finishing this thesis.
7. My beloved parents and sisters. All my friends in English Language Department of Pascasarjana IAIN Kediri
8. All people who help me to complete this thesis Finally, the researcher hopes this thesis will be useful for all readers. Because the researcher realizes that this thesis is not perfectly enough yet, the researcher excites to receive constructive criticism and suggestions to make this thesis better
