

## CHAPTER V

### CONCLUSION AND SUGGESTION

This chapter presents conclusion and suggestion of the research. Here the researcher would like to give conclusion of this research and give some suggestion for the next researcher.

#### A. Conclusion

Based on the analysis, the researcher obtains some findings. The researcher identifies the types of speech act and find the dominant classification of Illocutionary act on Facebook statuses update. There are five types was found in the data consisting of representatives, directives, commissives, expressive, and declarations. The results of the research is 27 data belonging to directive act (24%), 23 data belonging to representative act (21%), 15 data belonging to commissives act (13%), 42 data belonging to expressive act (37%) and 6 data belonging to declarations act (5%). Therefore, the total of the whole data found in facebook statuses are 112 data (100%).

#### B. Suggestion

Based on conclusion above, the researcher would like to give suggestion for all someone who interested studying speech act. The suggestions are follows:

1. For the teacher

The teacher expected to give student more interesting to study about speech act. Otherwise, this research can be reference of the material about speech act.

2. For the students

For the students it is better for them to enrich their knowledge in communication by using illocutionary act and it is suggested for them to analyze the theory of illocutionary act widely in order to make a further research about illocutionary act.

3. For the next researcher

The next researchers who are interesting in the same topic, they must study more about speech act, understanding kinds of speech act, about the theory also because the main point of the research is theory that will be used to research. Beside that to make a detail analysis of illocutionary act in movies or another field such as dialogue in television, radio, advertisement, and newspaper.
