

## **CHAPTER V**

### **CONCLUSION AND SUGGESTION**

This chapter discusses the issues dealing with the researcher's conclusion and suggestions. The conclusion includes the result of the classroom action research in the cycle. The suggestions include the suggestion for the teacher, the students, the institution and other researchers that probably would like to conduct the same action research.

#### **A. Conclusion**

In the implementation of improving vocabulary mastery using picture dictionary at the first year students at MTs Manba'ul Afkar Sendang Banyakan Kediri, the researcher as teacher designed some activities. The activities are stimulating students prior knowledge by asking question, introducing the topic, introducing the words that would be conveyed by giving the picture dictionary to the students, reading picture dictionary to the students, giving worksheet to the students, giving evaluation test to the students.

Based on the result of the classroom action research in the cycle, it can be concluded that the classroom action research was successful. It was because there are 15 students passed the minimum score. Therefore, it could be concluded that the teaching English using picture dictionary was successful to improve the student's vocabulary mastery at the first year students at MTs Manba'ul Afkar Sendang Banyakan Kediri.

## **B. Suggestions**

After conducting the classroom action research, the researcher would like to share some suggestions, in which the suggestions are addressed to the teacher, the students, the institution, and the other researcher.

### **1. The Teacher**

In order to achieve a good result from a teaching and learning process, teacher should concern about the students' problem in learning. By finding the problem, teacher can determine what kind of actions that appropriate to solve the problem. Teacher also should discover the students' characteristic and how they learn. This is because by knowing the students' characteristics and students' learning style, the teacher can determine an appropriate teaching method. Teacher should always be creative in using a teaching media especially using picture dictionary. There are many others media that usual to teach such as games, song, movie, or others.

### **2. The Students**

The English students should motivate themselves to learn. They should follow the activities in class well. They should learn English continually. They should be creative to find how to learn English well. They can learn English by themselves by using many media. They should also learn English at home and finish their homework.

### **3. The Institution**

The institution should encourage the English teacher to improve the quality of teaching English. So, teacher will be more creative in using various

media. Therefore, the institution should provide various media supporting the teaching and learning activity.

#### 4. The Next Researcher

This research investigates the use of picture dictionary in teaching children's vocabulary. It is hoped that the result of the study can be used as additional references for further research in different context that will give contribution in teaching English for children.
