

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

This chapter discusses the conclusions and suggestions based on the research findings and discussion stated in the chapter four. The conclusions deal with the use of reading card in improving students' reading skill. In addition, the suggestions are proposed to follow up the findings of the study.

A. Conclusion

The conclusions based on the observation and the students score results of the implementation of reading card to improve their reading skill are as follows:

1. The implementation of reading card at the first grade student's members at MAN Kaḡat can improve their reading skill and also can increase their involvement in teaching and learning process.
2. The percentage of students' involvement from the observation in the end of cycle I is 72, 7% and it increases become 91, 7% in the end of cycle II.
3. There is a progress for the students' achievement in English reading. It can be seen from the improvement of students' score. It begins from 17 students (53,1%) success in cycle I, into 27 students (84, 4%) success in cycle II, or it was 84, 4 % of the students get score >75.
4. The students' motivation and confident can developed by using reading card. The students become more active in teaching and learning process

5. By using reading card the students can predict the story about, because the function of picture inside is helping the reader to understand about the story.
6. The teacher has to close to the students because they need more attention from the teacher. By this strategy the students will be motivated in teaching and learning process.

B. Suggestion

In order to increase students' reading skill or achievement by using reading card, the researcher has formulated some suggestions as follows:

A. For Teachers

1. Teacher should be well prepared the materials that can supported the objective of teaching and learning process.
2. Teacher must give motivation and close to the students in order to make the students interested in teaching and learning process.
3. Teacher should be more creative in searching other interesting resource or trying new method, technique and media in teaching reading to improve students' interest and develop their reading ability.
4. The teacher may consider in teaching and learning process to use reading card media in improving the students' reading skill.

B. For other researcher

The writer hopes that there will be many researchers who are interested in studying some other techniques or methods to teach reading more effectively and fun in the future.

C. For the students

The students have to improve their knowledge, especially in reading because reading skill is important and by reading the students will know more knowledge. By reading the students can improve their English.
