

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter present the conclusion and suggestion of the research. After knowing the result of this research in the previous chapter, the researcher tries to conclude and give suggestion to make better condition in the next research.

A. Conclusion

This research conducted to know the students' perception on the use of YouTube in Public Speaking Course at IAIN KEDIRI. The researcher used quantitative research with survey design by using SPSS 23 and Microsoft Excel to analyze the data. For taking the data, it used questionnaire adapted from Littlewood in Shamsuddin (2015) and Davis, Bagozzi, and Warshaw (1989). The total population in this research is 160 students with the sample is 41. Based on the research that was described in chapter IV, in Confidence sub dimension, there are 73% of the students have positive perception. And then in Freedom of Choice and Control sub dimension, there are 76% have positive perception. In Motivation sub dimension, there are 73% students have perception. In Perceived Usefulness (PU) sub dimension, there are 73% Students have positive perception. in Perceived Ease of Use (PEOU) Complexity sub dimension, there are 70% students have positive perception.

It can be concluded that the students' perception on using YouTube in Public Speaking in English Department of IAIN Kediri is Scale Positive. Most of the students are agree with implementation of YouTube in Public Speaking. Learning Public Speaking by using YouTube makes students more comfortable

using YouTube, and can present material about public speaking easily. Of course, from these results, YouTube can also increase their fluently when Public Speaking.

B. Suggestion

In this section, the researcher gives some suggestion related to the result of the research. Hopefully, this research will be useful and give a great contribution for the readers. There are some valuables which are addressed to the students, teachers, and the next researcher.

1. The Students

The students should be confident to speak English. They have to believe in their ability. To support the students' Public Speaking, they can use a media namely youtube. It is very famous around the people. By using youtube they can learn about Public Speaking so they can to convey our ideas, information, persuade, influence, motivate, educate and entertain the listeners. to someone so that they understand what we convey or can change the ideas or views of others.

2. The Teacher

Based on the finding that youtube can support the students learning Public Speaking in English Department at IAIN Kediri, therefore the teacher should use it more frequently in the process of teaching and learning.

3. The next Researcher

Based on the research finding about students' perception on the use of youtube in learning speaking, further researcher is advised to develop the

research by adding subjects, adding theories, reviewing more references, so that the research can be better and more complete.
