The short videos are easier to follow, and they often use everyday language, slang, and trending expressions, which helped me pick up natural speaking styles. Lives can be useful too, but they're longer and sometimes harder to understand without subtitles."	One challenge I face with video content is when people speak too fast or use heavy slang. it can be hard to follow. With live features, it's even trickier because there are no subtitles, and I can't pause or rewind easily. Sometimes the audio quality isn't great either, which makes it tough to catch every word.	Yes	One challenge I face is that the English I learn on TikTok is often very informal or full of slang, so it doesn't always fit in more formal situations like school or work. Sometimes I try to use expressions I heard in a video, but they sound awkward or out of place in real conversations. Also, not everything on TikTok is grammatically correct, so I have to be careful about what I pick up.	Yes	Yes	Yes, I've definitely misunders tood some English content on TikTok. One time, I didn't get the meaning of a slang phrase someone used. it sounded funny, but I didn't know if it was a joke, sarcasm, or serious. Sometime s creators also use cultural references or wordplay that don't translate well, so I miss the point of the video.	To improve TikTok for English learning, I think it would help if more creators added accurate subtitles and explained slang or idioms in simple terms. TikTok could also have a feature that lets you slow down videos or repeat certain parts. It would be great to have more educational content mixed with entertainme nt, like short grammar tips or pronunciati on guides from native speakers.
