

BAB V

CONCLUSION AND SUGGESTION

In this chapter, the researcher presents the conclusion concerning the result of this research. Moreover, it also provides some suggestions for the English teacher, students, and also further researcher.

A. Conclusion

This research was conducted at the eleventh grade students' of MA Al-Huda Kediri. The aims of this study was to improve writing skill by using picture series at the eleventh grade students' of MA Al- Huda Kediri. Based on the results and discussions in Chapter IV, it can be concluded that most of the students respond the teacher actively. Furthermore, the teaching learning process was done very well. Therefore the implementation of pictures series in the teaching and learning process of writing was effective to improve their writing skills. Beside that, in teaching and learning process of writing by using pictures series could made students were more enthusiastic to learn, so it made them got good achievement, the students more enjoyed. The students were more understood what their should to wrote, and also the students were could express their ideas in writing.

In this research was conducted only cycle 1 because it had already succeeded, it can be seen based on the research results the students who got score least 77 are 8% from test 1, and 88% from test 2 in the cycle 1. Next, the average score is 58,9 from test 1 and 83,8 from test 2 in the cycle 1.

Based on the results of the research, it is implied that picture series was effective to improve writing skills at the eleventh grade students of MA Al-Huda

Kediri. The use of pictures series are able to attract the student' motivation and attentions in writing learning process. Therefore, the use of picture series are very beneficial to be implemented in teaching writing and learning process. And also, the teachers need to implement the picture series in their teaching and learning process because the use of picture series can improve students' writing skills in four aspects of writing skills that include content, vocabulary, organization, and grammar.

B. Suggestion

Dealing with the conclusion, the writer would like to give some suggestions to improve English proficienct as follows:

1. Suggestion for the students

To improve thier writing skills, the of eleventh grade students should more practies to writing, and more memorize the vocabulary. Moreover the students should not be afraid of making mistakes and errors when they are praticippating. They also should keep thier motivation in learning English.

2. Suggestion for the teacher

The teacher should be more applying appropriate technique and media so that the students will be interested and motivated and in the teaching and learning process of writing. When the students are interested and motivated, the teaching and learning process of writing can be maximized and will impact on the result of students writing. Therefore, the picture series is one of useful media and also it is effective to improve the students' writing skills and motivation.

3. Suggestion for reader or next research

The researcher offers the suggestion that such activities should be conducted in other classes of other school to get the wider generalization of result of the study and the results of the study can be used as one of references for the other researchers who conduct the similar studies related to the development of the students' writing skills. The researcher hopes that she will be many researchers would explore the use picture series in teaching and learning English process. The researcher hopes that picture series can give a valuable especially in understanding writing.

In this research, the researcher implemented picture series in English writing skill for the eleventh grade students of MA Al-Huda Kediri. Other researcher can apply this method on different level of students.
