ABSTRACT

Arganata, Koko Lintang. 2025. *The Correlation among Social Media-Used Perception, Self-Efficacy, and Speaking Skill of Senior High School Students.* Thesis. Department of English Language Education, Graduate Program, IAIN Kediri. Advisor: (I) Dr. Ary Setya Budhi Ningrum, M.Pd., (II) Dr. Sri Wahyuni, M.Pd.

Keywords: Correlation, Social Media-Used Perception, Self-Efficacy, Speaking Skill.

As a main language skill, speaking must be learned by students for both getting their best achievement and further businesses in their future. The success of speaking-learning can be affected by various factors, like technology utilization and psychological factor named self-efficacy. This study aimed to find out whether any significant correlation among social media-used perception, self-efficacy, and speaking skill of senior high school students.

A quantitative approach with correlational design was applied to analyze the data of this study. 144 tenth grade students of SMAN 7 Kediri were served as the participants. They filled two Likert Scale questionnaires and did a test. The questionnaires were on social media-used perception with 20 questions and self-efficacy with 27 questions. While, the test was on oral test which students describe a picture in 3 minutes. To analyze the correlation of the variables, interpretation of significant standard coefficient correlation with SPSS 26.0 was used.

The findings showed that the coefficient correlation values between social media-used perception and speaking skill was 0.400, self-efficacy and speaking skill was 0.329, and social media-used perception and self-efficacy with speaking skill was 0.624. The results showed that there was significant and positive correlation of the variables because the coefficient correlation values were greater than $r\text{-table} = 0.159$. Further, the significant (sig.) F Change was $0.000 < 0.05$ which means that H_0 is rejected and H_a is accepted. It can be concluded that students' social media-used perception and self-efficacy simultaneously correlated to their speaking skill on high correlation level.

ACKNOWLEDGEMENT

In the name of Allah SWT, the most gracious and merciful, because of his blessing that this thesis can be finished properly on appropriate time. Peace and blessing be upon for Muhammad SAW, the last prophet in the world. Subsequently, I express my great appreciation and thank to those who have a big contribution in helping me finishing this thesis. It is my pleasure to acknowledge:
