

CHAPTER V

CONCLUSION AND SUGGESTION

After discussing the result of the analysis, the researcher would like to conclude and make suggestion in the last chapter of this research.

A. Conclusion

After analyzing the speech acts used by members of English Youth Community in their posts and comments on facebook, the researcher categorize the speech act from Austin's theory. Austin substituted a three-way namely locutionary, illocutionary, and perlocutionary acts. Based on the data Austin classifies speech acts into five types, Verdictives, Exercitives, Commissives, Behabitives, Expositives. Austin's classification is best seen as an attempt to give a general picture of speech act: According to theory in this thesis, the researcher also found five types or category of speech act based on Austin's theory. These are verdictives, exsercitives, commissives, behabitives and expositives.

After the researcher see in posts and comments of members English Youth Community on facebook. In that group the researcher found there are many posts and comments but the researcher just took 30 items. Because based on the data the researcher need 30 items to analyze. The researcher analysis to know all of the function from the items that used by members English Youth Community on facebook. But when the researcher analysis all of the data, the researcher found one until two functions in one item in posts and comments that are used by members. After analyzed the researcher found more than 30 categories, the researcher four ⁴² :tions in 30 items that are used by members.

In this thesis the researcher took conclude, after found the data the researcher analysis all of the function and the researcher found the most commonly is expositives. Why the researcher says the most commonly is expositives that are used by members English Youth Community? Because the most of members giving information when they posts and comments on facebook. Therefore, the most commonly used by members of English Youth Community in this thesis is expositives .

B. Suggestion

After the researcher presents the conclusion of this research, the researcher will give some suggestions related to this research. The suggestions are useful for the members of English Youth Community and the next researcher.

1. For the members of English Youth Community

Based on the research, for the members who used facebook to inform or conduct of arguments. Because facebook more useful for us, for example we will get more information about anything, and we can increase our knowledge in English language skills. And we can share different information with others friend on facebook.

2. For the next Researcher

Based on the result of this research in the analysis of speech acts, it can be suggested that this research can be discussed from other topics by the next researcher, for instance by using other theory, not only on posts and comments on facebook. It will be more attractive to compare white theory speech acts by Searle or other theory.
