

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter the researcher presented the conclusion to answer the statement of the problem and suggestion for the English teacher, students, and the next researcher to study about the impacts of studying at English course *kampung Inggris* toward speaking skill.

A. Conclusion

The objective of this research was to investigate students perceive who ever studied at Dynamic English course *Kampung Inggris* Pare toward their speaking skill at least two weeks. Speaking is one of the language skills that mostly used by people for communication. A speaker should have an ability and skill to deliver information to others in order to make the conversation clearly. Moreover, speaking is a part of everyday interaction and most people judge someone by his or her speaking ability.

Speaking skill also relates to the other language skill, which is why language students should take this skill seriously because this will beneficial for their skills. Thus, this research has one main discussions which is students' perception on the impacts of *Kampung Inggris* Pare course toward their speaking skills.

The discussions were discussed based on the students' perception. This research was designed as quantitative research and the approach

was descriptive quantitative. The researcher conducted the research since January, 2021 until February, 2021. The finding of this research has answered research questions.

B. Suggestion

Based on the conclusion above, the researcher would like to offer some suggestion which are hopefully useful for English teacher, students, and the next researcher.

1. For English teacher

As English teacher, English teacher must create a relax atmosphere to motivate their students in the learning activity. Teachers should know their students' skill then they can find a teaching method appropriate with their students' needs.

2. For the students

The result of this research is able to make the students' become aware that speaking is not an easy skill to be required. Students should know some factors that influence speaking skills like the use of vocabulary, grammar structure, and pronunciation. Students should analyze their speaking difficulties then they can find a way to overcome the difficulties. Besides, the researcher also recommends students to find another way to learn English. It can be as finding an appropriate English course for students.

3. For the next researcher

At last, this research contains the narrow discussion about students' speaking skills, so the future researchers are recommended to conduct the research regarding the topic of this research with the other discussion and other context. Besides, the researcher really hope that others future researcher do more research about English course ingenerally, because there is limit information of English course in ingenarally.
