

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, there are two things that will be covered, they are conclusion and suggestion. The conclusion will be shown according to the finding and discussion in the previous chapter. Meanwhile, the suggestion will leads the further researcher on the same field.

A. Conclusion

According to the findings and discussion that explained in the previous chapter, it is shown that “Four” music album used kinds of figurative language especially on song lyrics. After conducting the analyzing, the researcher found song lyrics including on 12 songs of the music album using kinds of figurative language to represent a feeling, an experience, and situation of nature.

According to Perrine’s theory about figurative language, the researcher found there are 12 kinds of figurative language are used on the song lyrics. There are 10 kinds of figurative language are found by the researcher such as simile, metaphor, personification, apostrophe, synecdoche, metonymy, symbol, paradox, hyperbole, and irony. Meanwhile, there are 2 kinds of figurative language doesn’t exist on the song lyrics, they are allegory and understatement.

Totally there are 12 songs of the music album, meanwhile there are 65 data of song lyrics that has found by the researcher. The detail of the percentage of each figurative language used on the songs are 6% used on 3

songs, metaphor as much 8% used on 4 songs, personification as much 13% used on 6 songs, apostrophe as much 6% used on 3 songs, synecdoche as much 11% used on 5 songs, metonymy as much 10% used on 5 songs, symbol as much 19% used on 9 songs, paradox as much 10% used on 4 songs, and the last is irony as much 6% used on 3 song. So, the most used of figurative language in “Four” music album by One Direction is symbol. The use of symbol as one kinds of figurative language almost on every song lyrics according to the research that had been conducted.

B. Suggestion

After taking a conclusion for the previous chapter, the researcher give a suggestions as down below:

a. For English students:

1. Learn more about kinds of figurative language including its definition.
2. Study about figurative language and how to analyze on literature context.
3. Identify the literature context trough kinds of figurative language based on related theory.

b. For teachers:

1. Get additional information about figurative language from previous study or other sources.

2. Ask the English students to analyze literature context especially on song lyrics through figurative language by using another One Direction music album.
3. Help the English students to increase during analyzing a literature context especially on song lyrics through figurative language.

c. For future researchers:

1. Hoped the future researchers can analyze and identify a literature artwork in another aspect of literature.
2. Hoped the future researchers analyze another music album of One Direction in a different point of view.
3. Related to the use of figurative language, the researcher should pay attention to the language which is flexible since it can adapt in the new situation.
