

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter presents the conclusion and suggestion of the research. After knowing the result of this research in the previous chapter, the researcher tries to conclude and give suggestion to make a better condition in the next research.

A. Conclusion

This research is conducted to know the students' perception on the use of youtube in learning speaking of the eleventh grade at SMAN 1 Papar. The researcher used quantitative research especially survey research design by using microsoft excel to analyze the data. For taking the data, it used a questionnaire. The total of population is 316 students with the sample size of 97 students. Based on the research that was described in chapter IV, in perceived of usefulness sub dimension, there are 71% of the students have positive perception. In perceived ease of use sub dimension, there are 75% of the students have positive perception. In confidence sub dimension, there are 69% of the students have positive perception. In freedom of choice and control sub dimension, there are 75% of the students have positive perception. In motivation sub dimension, there are 71% of the students have positive perception. It can be concluded that the students' perception on the use of youtube in learning speaking of the eleventh grade at SMAN 1 Papar is high. Most of the students are agree with the implementation of youtube in learning speaking. Learning speaking by using youtube can make the students more interesting and enjoy in learning. Moreover in pandemic era, the teacher can use youtube to be a media to deliver the topic. Youtube is very helpful in learning

speaking skill. For example, the students can learn pronunciation from the native speaker, get some vocabularies, and learn grammar. Therefore, the students can get some benefits to support their speaking skill by using youtube.

B. Suggestion

In this section, the researcher gives some suggestion related to the result of the research. Hopefully, this research will be useful and give a great contribution for the readers. There are some valuables which are addressed to the students, teachers, and the next researcher.

1. The Students

The students should be confident to speak English. They have to believe in their ability. To support the students' speaking skill, they can use a media namely youtube. It is very famous around the people. By using youtube they can learn grammar, pronunciation, vocabulary, anything that can improve their speaking skill.

2. The Teacher

Based on the finding that youtube can support the students' speaking skill learning for senior high school students, therefore the teacher should use it more frequently in the process of teaching and learning. There are some recommended channel for learning English about procedure text, namely RSU1 Youtube and simple English. The teacher can use these channels for teaching speaking skill.

3. The Next Researcher

Based on the research finding about students perception on the use of youtube in learning speaking, further researcher is advised to develop the research by adding

subjects, adding theories, reviewing more references, so that the research can be better and more complete.
