

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

After analyzing the students' cause and effect essay writing, the researcher has found some results as follows:

1. According to the analysis that was conducted in XI MIPA D, there are 8 students (25%) in fairly good grade, 20 students (62.5%) in good grade, and 4 students (12.5%) in very good grade. The means score of the students' cause and effect essay is 79.38. It can be concluded that the students' ability in writing cause and effect essay is good because the means score is 79.38 and it is categorized as good.
2. The result of the students written task based on the criteria from Jacobs' et al., (1981) showed that there are 12 students (37.5%) that had problem in language use, there are seven students (21.88%) that had problem in mechanics, there are six students (18.75%) that had problem in content, there are five students (15.63) that had problem in organization and there are two students (6.25%) that had problem in vocabulary.
3. The use of internet (62.5%), dictionary (28.13%), and practice (9.38%) are the solutions to improve the students' ability in writing cause and effect essay offered by the students. In line with the result, the teacher also suggested that the students should practice writing more.

B. Suggestion

From the conclusion above, the researcher tries to give some suggestions as follows:

1. For the English teacher

The teacher should give in depth explanation about how to write cause and effect essay, provide more examples of cause and effect essay in order to give the description of good cause and effect essay. The teacher should give feedback to the students' essay and discuss it with the students about the mistake they have made.

2. For the students

The students should pay attention more to the teacher's explanation in order to understand the aspects of cause and effect essay and how to write it. Then, the students should force themselves to practice more in order to develop their ability in writing cause and effect essay.

3. For other researchers

The findings of this study are expected to be used as a reference for other researchers who plan to conduct the study related to students' ability in writing cause and effect essay. The other researchers are suggested to conduct new study with different elements of this study
