

CHAPTER V

CONCLUSION AND SUGGESTION

5.1 . Conclusion

It can be concluded that the end of result is able to be shown that the students are going well by using WhatsApp media on their learning process during the pandemic. The current study has provided significant findings about how course management system, WhatsApp group was experienced by students in learning activities in their English courses and overall students' satisfaction as well as their engagement using it for their learning.

Some of students said that learning English by using WhatsApp brought their courses to their face so that they can participate and continue work on their classes beyond the working hours. In spite of these positive findings, the study revealed that some students fell into serious addiction to social media technology. Hence, they obtained benefits to helped them submit their assignments on-time, obtain feedback from their teachers, and course descriptions and communication with their instructors. Overall, From these the students are at the high level of interest in learning English.

The researcher collected the data by using observation and interview. The result of both the data in learning process on English lesson during the pandemic through WhatsApp media is suitable for the students. One of the reason is they easy to used and also access that application, and one of the problem is the

students have a little chance to practice English out of class because most of their friends speak Indonesia.

5.2 . Suggestion

1. For English Teachers

From the outcomes of this study, teachers are predicted to have a new point of view in learning process, in particular English lesson by WhatsApp group application. By using that media will help the students easier in process, enjoy the learning, and also more active in the class. Besides, the rules of this technique are liked by the students.

2. For Students

Students of Junior High School have to improve their skill in English because this is needed in their live. In the other word, WhatsApp may be used for the learner to make them less difficult to research and understand well about learning English by using WhatsApp group application.

3. For Next Researcher

The researcher has suggestion that this activity should be conducted in other schools to get the wider generalization of the result of this study. The researcher also hopes that there will be many researchers who explore and use this media in learning process on English lesson.
