

CHAPTER V

CONCLUSION AND SUGGESTION

This part is used to state the conclusion of the research and addressing the suggestion to certain parties related to the research field. Here is the description of the chapter.

A. Conclusion

This current research was aimed at improving students' vocabulary mastery using matching card game. To achieve the objective, classroom action research was designed and employed through two cycles. In pre cycle the students showed 3 students passed the criteria of success (80). In the posttest of cycle 1, there were 9 students or 45% of the total students with mean score 77 passed the criteria of success. In the posttest of cycle 2, 85% students with mean score 84.5 passed the criteria of success. There were only 3 students could not pass the criteria of success. However, they showed a good improvement on their score even it was under the criteria of success.

B. Suggestion

The researcher gives some suggestion to some parties according to their role in the research.

1. For the students

For the students, it is crucial to develop vocabulary mastery. To develop it, following the classroom activity actively is needed. Moreover, the students should give attention much on what they study about. Last, joining the

game that provided by the teacher should be done to help them succeed in achieving learning goals.

2. For the Teacher

For the teacher, it is needed to find appropriate media and activity to help students understand the materials. Designing appropriate activity for the students is one of key point of success in teaching and learning. When the students face difficulties in the classroom, the teacher should be aware and directly do observation and find appropriate media to overcome it.

3. For the next researcher

For the next researchers, it is needed to enlarge the field of this research. Designing different research model seems to be worth to enrich field of research. Moreover, the next researcher could also conduct similar research in the different environment to strengthen and enrich the discussion.
