

CHAPTER VI

CONCLUSION AND SUGGESTION

In this chapter, the researcher presents the conclusion as the summary of this research finding that have been discussed in the chapter V. this chapter also presents the suggestion for some people who is related to this research.

A. Conclusion

The conclusion of this research is also as the answer the research problem stated in chapter 1. This study is aimed to explain whether using of *Chick Learn English* media effective than using flashcard for young learner's 4th grade student's in MI Miftakhul Huda Bakalan in vocabulary mastery of English for academic year 2020/2021.

The finding of this research stated that, there is significant different effect between those who are thought by using *flashcard* and those who are thought by using *Chick Learn English* in the fourth grade of MI Miftahul Huda Bakalan. The mean score of posttest for control group (the mean score of learning vocabulary using *Flashcard*) is 70,25 and the mean score of posttest for experimental group (the mean score of learning vocabulary using *Chick Learn English*) is 84, 75.

B. Suggestion

Related to the findings and discussion of this research, some suggestions are given as follow.

1. For the Teacher of English Young Learner

Teaching vocabulary using media is important to improve student's mastery. So that, as the teacher, he/she should prepare many kinds of media that can support the students to study. From the result of this study, teacher is better use Chick Learn English as a media to help him/her increase students' vocabulary mastery so that the learning process can run effectively using effective media.

2. For the students

Using games (CLE) is fun for students, but they must remember not to be longer to use it that can makes them forget the time. Meanwhile, they can use this kinds of media as exercise to increase their memory of English words. Students are also better not only memorize the words but also use it in their daily life at school. It will make them can memorize it longer.

3. For the next researcher

For the next researcher, the researcher suggests to study or do research about another variable that may be able to influence the different score between using flashcard and using Chick Learn English. Besides, another researcher can also do research about another media that can improve students' vocabulary mastery.
