

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, after knowing finding and discussion in the previous chapter, the researcher give conclusion. The conclusion here answers the research questions from this research.

A. Conclusion

Based on the result in chapter four about the English students' perception towards the use of youtube in academic speaking class, the finding show that English students' have a good perception. The students enjoy using youtube in academic speaking class because most of them have understood or familiar to use youtube in academic speaking. And students' perception on academic speaking courses by using youtube also were in very positive category. It is because they feel comfortable in learning. Then they also give positive perception because youtube learning activities are very interesting and motivating.

B. Suggestion

After understanding the finding of this research, several suggestions could be addressed for lecturer and further researcher.

1. Lecturer

For the lecturer, the researcher suggests that the lecturer more cares about the problems that students have. The lecturer should use youtube better to interact with students and provide matereial explanations that make students more active in learning. Therefore, it will help students to understand the courses mateerial better.

2. Students

For the students, the researcher suggests that the students can increase the enthusiasm of learning by using youtube. The students should not delay the assignments and more active in learning.

3. Further Researcher

For future researcher, this research is only focused on the third semester students in academic speaking class of English Department. Hopefully, the future researcher could continue this research better on another level.
