

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, the researcher presents the conclusion and suggestion concerning the data analysis and discussion. Conclusion is the form of what is discussed from the discussion, while Suggestion is the benefit of the research results for the readers of this research.

5.1. Conclusion

Cancer survivors can survive happier if they get influence and support from people surrounding. In addition to undergoing cancer therapy for the patient's recovery, but mental health also required. So that cancer patients don't feel stressed and pessimistic, a positive environment is needed and also motivation to stay motivated in living life so as not to give up even though you are experiencing cancer. Therefore, in this study the researcher took research from the stories in the novel entitled *The Fault In Our Stars* By John Green and make a study entitled *The Influence and support of Augustus Waters to Hazel Grace in facing cancer through novel The Fault In Our Stars* By John Green.

In the novel entitled *The Fault In Our Stars* By John Green, it tells the story of two teenagers named Hazel Grace and Augustus Waters who are both facing cancer. Hazel Grace is experiencing thyroid cancer, while Augustus Waters have osteosarcoma cancer.

It was from the same experience that caused the two teenage figures to become close to each other. Moreover, Hazel Grace who has a pessimistic feeling because the cancer she is facing makes her always introvert. Then there was a man named Augustus Waters who was both attending a support group which is a place for people who have life problems due to being face various diseases and make life Hazel Grace had changed since the meeting at that place.

Based on finding data and discussion in chapter 4 taken from the novel *The Fault In Our Stars* By John Green, the researcher obtain conclusions that can be drawn from research on *The Influence and Support of Augustus Waters to Hazel Grace in facing cancer through the novel The Fault In Our Stars By John Green*, as follows :

1. In the novel *The Fault In Our Stars* by John Green there is one figure named Augustus Waters can provide influence and support for Hazel Grace in facing cancer. Thus, the researchers made research entitled *The Influence and Support of Augustus Waters to Hazel Grace in facing cancer through the novel The Fault In Our Stars By John Green*.
2. The researcher found 23 data from the novel *The Fault In Our Stars By John Green* to prove and explained that Augustus

Waters could give influence and support to Hazel Grace in facing cancer.

5.2. Suggestion

Considering the conclusion above, the researcher would like to propose some suggestions, which hopefully will be useful for the general readers, the readers who are especially cancer sufferers, the readers who are especially families of cancer sufferers, the readers who are especially friends with cancer sufferers, and the teachers who especially teach cancer sufferers .

1. For the general readers, they will know how to treat cancer patients well. Cancer sufferers need good treatment so that the patient's condition gets better faster.
2. For the readers who are especially cancer sufferers, they will feel high spirits and not feel pessimistic. So, if the patient's reads this research, it is hoped they keep strong and don't give up on his illness.
3. For the readers who are especially families of cancer sufferers, they will treat cancer patients fairly and keep provide strength to face their disease. This is very much needed by cancer patients because for them the family is the main support in facing their disease.
4. For the readers who are especially friends with cancer sufferers, they will treat cancer patients by don't

excommunicate them. Usually cancer patient's think that their friends will stay away from them after knowing about their condition. Therefore, friends don't stay away and must continue to provide support for them.

5. For the teachers who especially teach cancer sufferers, they will give special treatment and give more enthusiasm. It's the teacher's role that causes cancer sufferers to keep enthusiastic about learning.
