

## CHAPTER V

### CONCLUSION AND SUGGESTION

This chapter describes the conclusion of the research as well as the researcher's suggestions for students, teachers, and future researchers.

#### **A. Conclusion**

The research aims to see if there is a significant influence on students' writing skills. According to the findings of the analysis, there is a significant difference between the experimental group that got Wattpad treatment and the control group that did not get Wattpad treatment. The mean pre-test score in the experimental group was 72.25, while the mean post-test score in the experimental group was 79.11. Meanwhile, the mean pre-test score for the control group was 72.38, while the mean post-test score was 76.80. The post-test mean shows that the experimental group, which class received treatment using Wattpad, has a higher mean score than the control class. This also demonstrates that the use of Wattpad has a significant influence on students' writing skills.

#### **B. Suggestion**

Based on the conclusion above, the researcher makes the following suggestions:

For Students, when the teacher is presenting the learning material, students must pay close attention to learning. If you have any questions, don't be afraid to ask the teacher directly. In an age of technological advancement,

students must take the initiative to constantly practice their language abilities, such as writing, reading, listening, and speaking.

For Teachers, teachers should not be solely focused on the information in the book. However, the instructor must also be able to bring innovation by using enjoyable teaching techniques or tactics in imparting lessons so that students are comfortable and can follow learning well.

For school, The researcher hopes that by providing enough facilities for students, schools would be able to support and explore media for use in teaching and learning activities.

For The Researchers, the researcher hopes to contribute by generating new experiences in English teaching. This research may be used as a reference for future researchers to complete research in the same subject, namely the usage of Wattpad in writing skills.
