

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter present the conclusion and suggestion related to the result of the research.

5.1 Conclusion

Based on the findings and discussion of the research in the previous chapter, the researcher draws the following conclusions:

5.1.1 Total Physical Response with picture media can improve the students' vocabulary and help them to remember and keep their vocabulary. With the technique, students become active, more interested to learn vocabulary.

5.1.2 The data was concluded, in preliminary study got 82,15 of average score and 65% of percentage students who passed KKM. In cycle 2 got 84,8 of average score and 60% percentage or 12 students who passed KKM. The last in cycle 2, all of the students passed the KKM with 86 of average score.

5.1.3 The students' activities in cycle 1 when using TPR technique with picture media are categorized as fair with a percentage of 54,1%. The students' activities in cycle 2 when using TPR technique with picture media are categorized as excellent with percentage of 87,5%. It means that using TPR technique with picture media can increase students' activity in learning vocabulary.

5.1.4 Both students' perceptions and feelings after learning vocabulary using TPR technique with picture media reach 75%-100%. It means that, the students enjoy,

happy, and understand English vocabulary easily because they are experiencing the real activities

5.2 Suggestion

There are some suggestions to offer to the Students, English teachers and the other researchers:

5.2.1 TPR with picture media is affective to improve students' vocabulary.

5.2.2 TPR with picture media can be alternative to overcome students' boredom.

5.2.3 This strategy or technique is suggested to the English teacher or other researcher who want to conduct in similar research or study.

5.2.4 And the last, the researcher hopes the result of this research can be used as an additional reference.
