

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, the researcher presents the conclusion of discussion. In this part, researcher also gives some suggestions for the English teacher, students and also further researcher.

A. Conclusion

The result of this research is described in the 5 meetings. The first meeting, the students are able to understand about the introduction of the Narrative Text and English E-Reader to the students cover the definition, description, etc through face-to-face classroom. The second meeting, they comprehend the implementation of teaching and learning process of the English E-Reader consists of pre-reading, while reading and post-reading. The third meeting, the students are excited to explore the learning material through digging information from the text in the online classroom (*Whatsapp*). The fourth meeting, they present their discussion in group through the presentation in the online classroom (*Whatsapp*). The last meeting, the researcher evaluates the students' competences on English E-Reader through evaluation session in the online classroom (*Whatsapp*). Based on the interview, the students can explain about the role of English E-Reader. They know about how to learn and access the English E-Reader website. Then, they recognize the challenges are often experienced when they learn English E-Reader.

B. Suggestion

Based on the result of this research, the researcher would give some suggestions. Hopefully the suggestion will be useful for teacher, students, and also the further researcher. After finishing this research, this research hopes that for English teacher can give better teaching reading media to the student during the learning process to make the student more interest the lesson. In this way the student will have easy way to improve their reading comprehension skill. One of the useful appropriate media can be used in teaching reading is English E-Reader

The student has to know that the reading comprehension skill is important one, so they have to improve their skill. Through English E-Reader, the student can do reading comprehension to comprehend what they read. It will improve students' reading comprehension skill.

For the next researchers who want to conduct English E-Reader on their research. The researcher suggests that the next researcher to apply action over a longer period to get maximum result because the weaknesses of this research is limited time to implement the actions.
