

CHAPTER V

CONCLUSION AND SUGGESTIONS

This section explains about conclusion and suggestions. The conclusion of the use of *E-Flipbook* to Reading Skill. Then, the suggestions are aimed at the reader of this study.

A. Conclusion

E-Flipbook media can make it easier for teachers and students to carry out English language learning, especially for the process of developing reading interests which are considered very important for students. Teachers become easy in delivering learning materials and students also easily receive learning materials. The results shows that there are the reasons of why the *E-Flipbook* interesting and boring, also some disadvantages, so that *E-Flipbook* is effective enough in increasing reading motivation. There are more students who feel that the *E-Flipbook* is interesting and the reasons are more of the advantages that more than the disadvantages. The interest can influence the motivation of reading of the students. However, on the other hand there are many benefits in using this flipbook. This media can also be broadcast on the big screen in the classroom when the atmosphere in the class is tight. Playing *E-Flipbook* for today's learning media that all uses gadgets is the right choice for teachers so that the atmosphere in class is not boring. In this study, adjusting KD or teacher modules to create more creativity in learning is highly

recommended, because after experiencing last year's pandemic virus attack many students lacked interest in learning including reading, then the teacher's efforts to increase students' interest in reading yes by using this new media that are more colorful to increase curiosity or the desire to continue learning by reading.

B. Suggestion

Following the results of the study, the researchers suggest that the results of the research researchers have done can provide an overview of the implementation of learning English through *E-Flipbook* media. And it is hoped that the results of this study can be taken into consideration for teachers in choosing this learning media so that the learning process can run according to the planned objectives, then it is hoped that this research can be a reference material for further researchers
